

Adrenoglan Chelate

Natural remedy for fatigue, exhaustion and stress

DESCRIPTION

Fatigue, exhaustion, and chronic stress undermine and weaken the immune system.

ADRENOGLAN CHELATE, a concentrate of adrenal glandular tissue, helps build up ailing stress glands. It is used for hypoadrenalism and anti-stress nutritional factors. It also aids in low blood sugar, fatigue, exhaustion, and stress.

FUNCTIONS

Vitamin C (ascorbic acid) is crucial to the immune function. It promotes the manufacture of collagen, the main protein substance of the human body and in blood sugar control.

Pantothenic Acid exerts a beneficial effect on utilization of fats and carbohydrates in energy production. It helps to prevent fatigue and listlessness.

Sodium and potassium are electrolytes. Sodium is necessary to maintain balance between calcium, a mineral needed for strong bones, and potassium, which helps to maintain normal heart action and equilibrium of the body. Potassium also assists in maintaining water balance and distribution, acid-base balance, muscle and nerve cell function, heart, kidney and adrenal functions.

Raw adrenal concentrate enhances adrenal functions in the way that the body deals with stress, fatigue, and exhaustion.

L-Leucine and L-Isoleucine are amino acids. L-Leucine is necessary for human metabolism or growth. It is needed by body tissue to make protein. L-Isoleucine boosts exercise performance and reduces protein and muscle breakdown.

Hesperidin Complex is helpful in increasing the strength of capillaries, while bioflavonoid complex aids in anti-viral activity and aids in the body's absorption of vitamin C.

Chlorophyll, a fat soluble astringent, stimulates the production of hemoglobin and red blood cells. Parsley, which is used for low blood pressure and anemia, boosts energy. Alfalfa is an important source of calcium, potassium, iron, and phosphorus.

INDICATIONS

ADRENOGLAN CHELATE has been proven to be very effective in treating fatigue, exhaustion and stress.

They are helpful in strengthening blood vessels and decreasing joint pain.

FORMULA

Each ADRENOGLAN CHELATE capsule contains:

Vitamin C (Ascorbic Acid).....	106 mg.
Pantothenic Acid (as Calcium Pantothenate).....	55 mg.
Sodium (from Sodium Ascorbate).....	14 mg.
Potassium (from Potassium Krebs ¹).....	24 mg.
Raw Adrenal Concentrate.....	80mg.
L-Leucine.....	10 mg.
Hesperidin.....	132 mg.
Bioflavonoid Complex.....	66 mg.

(continue on reverse)

Chlorophyll (from
chlorella).....10 mg.
Parsley
(leaf).....18mg. Alfalfa
(entire plant).....18 mg.
Celery (seed and
stalk).....18 mg.
Other ingredients: gelatin and vegetable stearate.
Krebs=Citrate, Fumarate, Malate, Glutarate, and
Succinate Complex.

SUGGESTED USE

Adults take one or more ADRENOGLAN
CHELATE capsules daily or as directed by
physician.

SIDE EFFECTS

No adverse side effects have been reported.

HOW SUPPLIED

ADRENOGLAN CHELATE is supplied in bottles of
100 capsules.

STORAGE

Store in a cool, dry place, away from direct light.
Keep out of reach of children.
