

# Vision Factors

## DESCRIPTION

Vision Factors, available exclusively from Medical Wellness Associates, is a synergistic blend of nutrients designed to support eye and macula health.

## FUNCTIONS

More than any other tissue in the body, the structure of the eye is continually exposed to harmful light and oxygen damage. Experts believe that many nutrients can play a crucial role in helping to protect the eyes and ensure healthy vision.

- Extracts of Bilberry, *Ginkgo biloba*, eyebright, green tea, quercetin, rutin and hesperidin are rich sources of flavonoids that provide potent antioxidant defense in retinal visual cells and help maintain healthy vascularization in ocular tissue
- Glutathione is an essential component for healthy activity of an enzyme which is abundant in healthy eyes. These enzyme levels, however, decline with advancing age. Adequate dietary supply of glutathione and its precursor N-acetyl-L-cysteine, may help maintain healthy levels of this important enzyme.
- Taurine, the most abundant free amino acid in ocular tissue, helps maintain the structure and function of the visual cells.
- Lutein and lycopene are members of the carotene family that play important roles in eye and retinal health

## INDICATIONS

Vision Factors may be a useful supplement for individuals wishing to support normal eye health.

## FORMULA (#200970)

### 4 Capsules Contain:

Eyebright (aerial parts) .....	160 mg
Rutin complex .....	135 mg
Hesperidin complex .....	20 mg
Bilberry 4:1 extract (fruit) .....	50 mg

L-Taurine .....	400 mg
Quercetin Bioflavonoid .....	50 mg
N-Acetyl L-Cysteine .....	200 mg
Bilberry powder (fruit) .....	40 mg
Ginkgo biloba extract (leaf) .....	40 mg
L-Glutathione (reduced) .....	25 mg
Green tea (leaf) .....	50 mg
Lycopene (complex) .....	1 mg
Lutein (complex) .....	10 mg
Zeaxanthin.....	1 mg

## SUGGESTED USE

Adults take 4 capsules daily or as directed by physician.

## SIDE EFFECTS

No adverse side effects reported.

## STORAGE

Store in a cool, dry place, away from direct light. Keep out of reach of children.
